

Plastic Film Extrusion Principles & Troubleshooting

Speaker
Paul
Waller

For Schedules & Registration, please visit www.knowhow-webinars.com

Day 1

- 08:30 Raw Materials for Plastic Films: Selection & Basic Properties
- 10:00 Raw Material Conveying and Blending Technology for Film Extrusion
- 13:30 Film Extruder Components and Setup Principles
- 16:00 Film Extruder Die Components and Setup Principles

Day 2

- 08:30 Film/Sheet Cooling and Stabilization Principles
- 10:00 Gauge Variation Randomization in Film Extrusion
- 13:30 Post Film Extrusion Processes
- 16:00 Quality Control Measurements in Film Extrusion

Day 3

- 08:30 Troubleshooting Visual Defects in Plastic Film and Sheet
- 10:00 Troubleshooting Cooling and Stability in Plastics Film Extrusion
- 13:30 Troubleshooting Roll Geometry in Plastic Film and Sheet
- 16:00 Troubleshooting Gauge Variation in Plastic Film and Sheet

Paul Waller

Paul Waller is a renowned expert and author in plastic film extrusion for more than 40 years. His clients include raw material suppliers, processors, end users, educational institutions and industry associations on 5 continents. Mr. Waller started his career at Dow Chemical's polyethylene technical services group before moving to Esso Chemical's Vinyl division. Mr. Waller designed and presented the Film Technology program for the Canadian Plastics Training Centre in Toronto and SENAI in Brazil. He was co-chair of the Canadian Plastics Sector Council, which established occupational standards for film operators and was chair of the Flexible Packaging division of the Society of Plastics Engineers. He has provided intensive in-house training to more than 1,200 operators, technicians and engineers on five continents in the last 17 years.
